Currently expanding knowledge in Machine Learning and AI to integrate intelligent features into web solutions.

## TECHNICAL SKILLS

---

**Programming Languages:** JavaScript, TypeScript, Java, Python, C++

**Libraries and Tools:** Node.js, Express.js, Spring Boot, React.js, React Native

**Databases and Tools:** MongoDB, MySQL, Docker, Git, GitHub, Postman

## WORK EXPERIENCE

---

### Full Stack Developer

*Integrated Digital Systems, Beirut*

05 2025 - 08 2025

- Built full-stack web applications with React.js frontend and Node.js/Express.js/Spring Boot backend.
- Developed RESTful APIs and optimized database queries with MySQL and MongoDB.
- Worked in an Agile team using Git, Jira, and Docker for deployment and version control.
- Implemented authentication/authorization with JWT and OAuth2.
- Performed code reviews and testing to ensure system reliability.

### Full Stack Developer

*Vanrise, Beirut*

09 2024 - 12 2024

- Contributed to a local meeting room booking system using React.js and Node.js/Express.js.
- Implemented APIs and database schemas with MySQL/MongoDB.
- Assisted in code reviews, testing, and bug fixes to ensure smooth operation.

## PROJECTS

---

- **Project 1:** Full-stack AI SaaS project with features like background removal, resume review, etc. [GitHub](#) [Demo](#)
- **Project 2:** Full-Stack grocery website platform using React.js, Express.js, and MongoDB. [GitHub](#) [Demo](#)
- **Project 3:** Mobile app similar to Udemy with same features using React Native. [GitHub](#)
- **Project 4:** Full-stack MERN Real Estate website with Redux and JWT implementation. [GitHub](#) [Demo](#)

## EDUCATION

---

### Antonine University

*Bachelor of Science in Computer Science*

Beirut, Lebanon

09 2022 - 07 2026
